The refund will be made within thirty (30) days of receiving said notice.

For contracts entered into on or after July 1, 2012, the purchaser may sell their rights in accordance with subsection (2).

However, once payment for the interment rights has been made in full and an interment rights certificate has been issued, the purchasers relinquishes their right to cancel the contract, and the interment rights holders, as registered on the cemetery records, may resell the interment rights in accordance with subsection (2). E. INTERMENTS, INURNMENTS, ENTOMBMENTS AND DISINTERMENTS

- 1. Written Permission by Interment Rights Holder.** Interment rights holder(s) must provide written authorization prior to an interment, inurnment or an entombment taking place. Should the interment rights holder be deceased or incapacitated, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder i.e. Personal Representative, Estate Trustee, Executor or closest next of kin.
- 2. Telephone Interment, Inurnment or Entombment Orders.** Orders for interments, inurnments or entombments may be given by telephone. However, the cemetery will not be responsible for any errors or misunderstandings that may arise, and such verbal orders shall be confirmed in writing prior to the interment, inurnment or entombment. The cemetery requires that families attend the cemetery office prior to an interment, inurnment or entombment to provide the necessary details in accordance with current policy. The cemetery may alter these requirements under extenuating circumstances.
- 3. Burial Permit.** A burial permit issued by the Registrar General or equivalent document showing that the death has been registered with the province must be provided to the cemetery office prior to an interment, cremation or entombment taking place.
- 4. Cremation Certificate.** A Certificate of Cremation must be submitted to the cemetery office prior to the interment or inurnment of cremated remains taking place.
- 5. Contract.** In accordance with the FBCSA, the purchaser of interment rights must enter into a cemetery contract, providing such information as may be required by the cemetery operator for completion of the contract and the public register, prior to each interment or entombment of human remains, or each interment or inurnment of cremated human remains.
- 6. Payment.** Payment must be made to the cemetery before an interment, inurnment or entombment can take place.
- 7. Arrears.** No interment, inurnment or entombment shall be permitted if any outstanding charges are due and unpaid.
- 8. Authorization of the Social Services Agency.** Written instruction/requisition from a social services administrator must be submitted to the cemetery office before an interment assisted by the Social Services Agency may take place.
- 9. Time of Notice.** The cemetery shall be given at least 8 business hours of notice for each interment/entombment of human remains or interment/inurnment of cremated human remains.

THE BEECHWOOD CEMETERY BY-LAWS

10. Interments on Sundays or Statutory Holidays. No interments shall be made on a Sunday or Statutory Holiday except upon presentation of a medical certificate that orders The Beechwood Cemetery to carry out the burial within 24 hours of death in accordance with the regulations of the Department of Health for the control of communicable diseases.

11. Opening and Closing of Interment Rights. The opening and closing of graves, crypts and niches may only be conducted by the cemetery staff.

To ensure safe conditions are maintained at all times, families wishing to witness the closing of a grave shall remain a minimum of 10 metres from the open grave and/or the equipment.

Every effort will be made to complete an interment on the assigned day and time. If conditions beyond the cemetery's control arise and an interment cannot be made at the scheduled time, the cemetery reserves the right to establish a temporary set up, and the interment shall be completed as soon as possible at a later time.

The cemetery retains the right of passage over every grave so that the cemetery operations may be performed effectively.

The cemetery retains the right to temporarily relocate a monument or marker and remove any planting materials so that cemetery operations involving the opening and closing of a grave may be performed.

The opening of a grave for interment necessitates the temporary mounding of earth on adjacent graves. The cemetery reserves the right to determine the location for the temporary mound and will make reasonable efforts to restore adjacent graves to their original condition as soon as possible following the closing of the grave.

Funeral flowers, delivered to the cemetery at the time of interment, will remain on the lot or grave for a minimum of 5 days and will be removed at any time thereafter and disposed of by the cemetery staff.

12. Number of Interments. Unless otherwise specified on the contract a maximum of two caskets may be interred in each grave.

Where two caskets are to be interred in the same grave, the first casket must be interred at extra depth.

THE BEECHWOOD CEMETERY BY-LAWS

- 13. Number of Urns Permitted.** A maximum of 8 urns may be interred in any adult grave. Should urns be interred before the maximum number of casket interments have occurred, urns must be interred beside or directly in front of the monument or in the case of a grave with a flat marker, just under the marker. Beechwood will make every effort to locate urns when digging a traditional grave but cannot be held responsible for damage that may occur to the interred urns.
- 14. Permanent Mounds.** Permanent mounds will not be permitted over graves.
- 15. Scattering of Cremated Remains.** Cremated remains are not permitted to be scattered on a grave or lot.
- 16. Disinterments.** Human remains may be disinterred from a grave provided that the written consent (authorization) of the interment rights holder has been received by the cemetery operator and the Medical Officer of Health has been notified. A certificate from the local Medical Officer of Health must be received at the cemetery office before the removal of casketed human remains may take place.

To change from standard depth to extra depth, the raising and subsequent lowering of remains are considered a disinterment.

The cemetery will not be responsible for damage to any casket or container which occurs during the course of the disinterment. A new casket or container may be required to facilitate a disinterment for which an additional charge will apply.

Disinterments will be completed at a day and time designated by the cemetery.

The cemetery reserves the right to disallow any witnessing of the disinterment.

A certificate from the local Medical Officer of Health is not required for the removal of cremated remains. The retrieval of cremated remains interred in a lot or grave cannot be guaranteed.

The cemetery will not be responsible for damage to any cremation urn or cremation urn outer container which occurs during the course of the disinterment. The condition of any cremation urn or cremation outer container disinterred may be unstable, in which case, a replacement urn may be required at the expense of the party authorizing the disinterment.

The process of scattering of cremated remains is irreversible; therefore, scattered cremated remains cannot be retrieved.

THE BEECHWOOD CEMETERY BY-LAWS

In special circumstances, the removal of human remains may also be ordered by certain public officials without the consent of the interment rights holder(s) and/or closest next of kin.

- 17. Contagious Diseases.** The remains of a person who died from a contagious disease are not to be disinterred except when the Medical Officer of Health, or other public officer having authority at the time, approves of the disinterment. No family members or other persons will be allowed to be present for any disinterment, except cemetery staff and Health Department officials.

It is a legal requirement that the cemetery be notified that a death is a result of a contagious disease, prior to arrangements being made for the interment.

In the event that a contagious disease has been confirmed, the cemetery reserves the right to adhere to recognized Health and Safety practices.

The cemetery may designate the hour and manner in which these interments may be made.

- 18. Pets and Other Animals.** Only human remains shall be interred, inurned or entombed in the cemetery.
